

INVITATION
INTERMAT, PARIS FRANCE
APRIL 16-21
STAND E6 A048

This year spring in Paris will be even more jaw-dropping. 35 percent to be exact.

Once every three years the construction and material industries gather in Paris to see the future in their field. Close to 1500 exhibitors entertain more than 200 000 visitors. This year, Brokk will turn the attention to the next generation demolition machines. With the Brokk 100, we're introducing the next step in remote controlled demolition machines. With 35 percent more hitting power, a more energy-effective engine, reduced weight and transport

and the Brokk's jaw-dropping reach and flexibility. Visit the Brokk stand: E6: A048 and see how all this compact power can revolutionize your building projects.

Welcome to Intermat in Paris April 16-21.
Spring time at its' best :)
