

# WELCOME TO OUR KIND OF PLAYGROUND

OUR KIND OF PLAYGROUND is often a very dangerous environment and there are no good arguments for exposing you or your staff to falling debris or dangerous vibrations. Our demolition machines, from the small Brokk 50 which is perfect for limited spaces, to the big and powerful Brokk 400 have certain things in common: they are radio controlled and electrically driven so that you are not exposed to dangerous fumes. Another thing which makes the machines even better is that you can demolish up to 5 times quicker than traditional sawing and cutting methods. Time is, as we all know money!

Visit [www.brokk.com](http://www.brokk.com) or your local dealer for more information!
