

## PRESS INFORMATION

Skellefteå, 2013-08-26

### **Brokk establishes sales company in Switzerland**

*Brokk AB, the world's leading manufacturer of remote controlled demolition machines, strengthens its presence in Switzerland by establishing a new subsidiary, Brokk Switzerland. Brokk makes this long-term investment in the Swiss market after many years of partnering with a local distributor.*

Switzerland is a market with a long and successful Brokk history. The introduction of the Brokk remote controlled demolition concept in Switzerland dates all the way back to the 1980'ies, and it has ever since continued to be a leading edge Brokk market.

The establishment of Brokk Switzerland represents the twelfth subsidiary that Brokk has established or acquired in recent years, and is yet another proof point of Brokk's long-term commitment to its customer's around the world. *"We are now making an important strategic investment in the Swiss market. Our Swiss customers' high demands on both the machines and the after-market service makes for a very good fit with Brokk's values and how we operate. Consequently, we see a great potential for long-term growth and continued successful co-operation"* says Martin Krupicka, CEO of Brokk Group.

Brokk Switzerland will focus on the sales and service of Brokk machines and equipment in the Swiss market. The first day of operation of Brokk Switzerland will be September 1<sup>st</sup>, when Brokk takes over the operation from its current partner in the market.

Mr Dieter Kaupp is appointed as Managing Director of Brokk Switzerland GmbH. Mr Kaupp was previously leading the Brokk business at Mertec AG, as Head of the business unit Machinery. *"Our experienced team in Switzerland look forward to continue to provide our customers with the same high level of service they are used to"* says Dieter Kaupp.
