

/ BROKK 900 ROTOBOOM

Brokk 900 Rotoboom is the heaviest robot Brokk offers and with a reach at an incredible 10 meters it takes processing applications to a new level. With reliable SmartPower™ and 360-degree arm rotation this robot holds unbeatable capacity for heavy and demanding demolition and maintenance work in the metal processing industry. Equipped with Brokks unique heat and impact-protected process breaker it is perfect for working with hot ladles, converters, runners, and furnaces. In addition, the maneuvering has been improved to enable precision work in a completely new way.

- Specifically designed for tough metal processing applications
- Rotating arm system provide optimal flexibility
- Patented heat-shielded process breaker
- Diesel or electric powered
